## Zaleski Model #7 Snow-Guard (Copper)

**MATERIAL:** Our model No.-7 regular copper snow-guard is manufactured using .020 thickness of cold rolled copper. Since it is double thick, the result is  $.020 \times 2 = .040$ .

Our Model No. 7 Lead-Coated Copper snow-guard is accomplished when a lead coating is applied to our model No.-7 copper snow-guard.

**TYPE OF ROOF:** Copper roof

**FASTENING:** Solder, -2- sided tape, or sealant
